SHRI V. NARAYANASAMY:

Will the Minister of FINANCE be pleased to state:

(a) the rates of excise duty on aerated water during the year 1991—94;

(b) the effective rate of excise duty when Government had changed levy of excise duty to ad-valorem, in the Finance Bill, 1994;

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI M. V. CHANDRASHEKHAR MURTHY): (a) and (b) The effective rate of excise duty on aerated water during the years 1991—94 and for the year 1994-95 are given in Annexure. [*See* Appendix 175, Annexure No. 51 also vide Question No. 2222].

(c) Excise duty on aerated water was reduced in the Budget for 1995-96 from 50 per cent. to 40 per cent. ad-valorem.

(d) The effective rate of excise duty on aerated water at 40 per cent. ad-valorem was prescribed in the Budget for the year 1995-96, in accordance with the general policy of moving towards moderate rates of taxation.

(e) Levy of excise duty on aerated water continues to be on ad-valorem basis. Tariff values, however, have been fixed in lieu of assessable value under Section 4 of the Central Excises and Salt Act, 1994, for purposes of assessment to ad-valorem duty, with effect from November 1, 1995.

(f) Does not arise in view of (e) above.

(g) and (h) Tariff values have been fixed with effect from 1.11.1995 for certain categories of aerated waters for determining the excise duty payable thereon. For these categories of aerated waters, prior to 1.11.1995, excise duty was payable with reference to value determined under Section 4 of the Central Excises and Salt Act, 1944. A change in the basis of assessment makes it difficult to indicate generally whether or not the amount of excise duty payable on the basis of tariff value exceeds the amount of duty payable on the basis of value under Section 4 of the Central Excises and Salt Act, 1994.
